

Highfield Community Primary School

**Disability Equality Scheme
2023**

1 Vision, Values and Ethos

Highfield Community Primary School is committed to the principles of inclusion. We have a caring, supportive ethos that seeks to value all individuals. Our school promotes equality of opportunity for disabled people: pupils, staff, parents, carers and others who use our school.

By promoting a positive attitude towards disabled people we aim to eliminate discrimination and harassment related to disability and thereby fulfil an essential component of our ethos.

We will involve disabled people in informing the direction our school takes to promote equality of opportunity and accessibility to the school environment. We also seek to encourage full participation of disabled people in the school community even if this requires more favourable treatment.

Our school aims to provide a broad and balanced curriculum in a happy, challenging environment where each pupil can develop to the maximum of their potential and feel valued as an individual who can contribute to the life of our school and society in general.

We promote:

- pupil self-confidence so that each pupil develops a sense of personal worth and is confident in his/her ability to succeed.
- positive relationships to help pupils develop good relations with others, based on mutual respect and consideration, and an understanding of, and a tolerance towards various races, religions and cultures.
- co-operation to develop the abilities of pupils to contribute as members of groups and recognising their responsibilities.
- self-discipline so that pupils understand the need for high standards of behaviour and to develop responsibility towards people and property.

2 The legal context

The 1995 Disability Discrimination Act (DDA) introduced a duty, which applies to all schools, which sets out a general duty to promote disability and a specific duty to publish a disability equality scheme. It requires schools to be more proactive in their approach to promoting disability equality and eliminating discrimination. Our definition of disability defines a disabled person as someone who has:

'a physical or mental impairment which has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.'

This definition covers a wide range of impairments, including hidden impairments such as dyslexia, autism, speech and language impairments, Attention Deficit Hyperactivity Disorder (ADHD). These are all likely to amount to a disability only if the effect is on a person's ability to carry out normal day-to-day activities. See *Appendix D for a list of impairments that would affect normal day-to-day activities.*

The duty puts greater focus on approaches to policy development and management of issues in relation to disability.

Part 4 of the DDA requires that the governing body increase access to education for disabled pupils. Our school has produced, with this scheme, an Accessibility Plan, which identifies actions based on our self-evaluation that will promote opportunities for participating in the curriculum; accessing the building and services and delivery of information to pupils and adults. *See Appendices A, C, D and E.*

3 Involvement of pupils, staff, parents/carers, governors, agencies and service providers

A working group representing the views of disabled people are fulfilling our statutory duty to involve disabled people in the production of this disability equality scheme (DES).

Pupils in our school, including our school council will provide their views to the group on accessibility issues and the school provision. *See Appendix B.* From the Annual Review of pupil statements we collate pupil and parent views to inform our scheme. Through respectful relationships with disabled pupils we acknowledge their feelings and respond to their views.

Where we have disabled staff, parents and service providers we will provide a response to suggestions on how we can improve our disability scheme and its priorities. This would inform considerations that may be required to make reasonable adjustments.

We will seek to record views of external agencies, voluntary groups and services we procure to inform our disability equality scheme and make any necessary adjustments.

An annual report, identifying priorities for school action, will be provided by the working group and passed on to the governing body

4 Information Gathering in relation to the recruitment, development and retention of disabled employees

Highfield Community Primary School will follow local authority guidance on the collection of information on disabled employees and the recruitment of new staff. The local authority human resources database has a record of those staff that have indicated whether they have a disability. Other information in school will be analysed to ensure that there is no discriminatory practice and will take into account the following: seniority, TLR payments, permanency of staff, CPD, disciplinary and capability proceedings, harassment and bullying, sickness and those leaving the profession early. Those staff that voluntarily provides

information will be assured that it is used confidentially to inform working practice and conditions.

All staff will be supported by the local authority agreed policies on sickness and returning to work. Our school would seek to contact the 'Access to work' scheme to explore possible support to staff if required during their employment.

5 The educational opportunities available to, and achievements of, disabled pupils

The school maintains a pupil tracking system, which provides current data on pupil attainment and achievement. This system also provides specific information on pupil disability and attainment. Pupils with a disability will be registered on admission to School. Information will be collected through the transfer of records from previous schools, the local authority and parents to ascertain pupil needs and levels of attainment and achievement in order that consideration is given to provision and access to curriculum. Further detail is available in our school's SEND and Admissions Policies.

In order that pupils have full access to the curriculum the school will prioritise aspects of the School Accessibility Plan so that pupils with a disability are ensured greater participation in the curriculum.

Consideration will be given to the management of pupils with medical needs and their care plans to access the curriculum.

The following questions would be considered to identify priorities:

- Are there areas of the curriculum to which a disabled pupil has limited or no access?
- Are pupils fully participating in extra-curricular activities?
- How are we addressing those areas of the school building that are not accessible to disabled pupils, staff or others?
- What forms of communication can we provide for pupils and adults?
- Does our written information allow greater access to the curriculum and information on our school?
- Are we monitoring policies and practice? e.g. administration of medicines, staff development on inclusion areas, incidents that may affect disabled pupils

Further questions are in Appendix C& E.

6 Impact, reviewing and reporting our scheme

The scheme will be monitored by the governing body and will be reviewed annually with the SEN Policy and Accessibility Plan. The review of the scheme will cover:

- Information on attainment and achievement for those pupils with a disability.
- Current pupils, staffing and others who are registered with a disability.
- A record of the progress made against the school Accessibility Plan.
- Adjustments that are to be considered in the school SEND policy which would cover staffing and provision.
- Priorities that would be included in the school's SEF and improvement plan.

Governors will receive an annual report on the school's DES. A summary of the scheme priorities are in the school prospectus and on our website.
See Appendix C for further questions that may be used by the governing body to assess the quality of the scheme.

Appendix E

Questions to support the Accessibility Plan

Identifying Barriers to Access – Curriculum

- 1 Are teachers and support staff receiving training to teach and support disabled pupils?
- 2 Are classrooms optimally organised for disabled pupils?
- 3 Do lessons provide opportunities for all pupils to achieve?
- 4 Are lessons responsive to pupil diversity?
- 5 Do lessons involve work to be done by individuals, pairs, groups and the whole class?
- 6 Are all pupils encouraged to take part in music, drama and physical activities?
- 7 Do staff recognise and allow for the mental effort expended by able and disabled pupils, for example using lip reading?
- 8 Do staff allow for the additional time required by some disabled pupils to use equipment in practical work?
- 9 Do staff provide alternative ways of giving access to experience or understanding for disabled pupils who cannot engage in particular activities, for example some forms of exercise in physical education?
- 10 Is there access to appropriate computer technology for pupils with disabilities?
- 11 Are school visits made accessible to all pupils irrespective of attainment or impairment?
- 12 Are there high expectations of all pupils?
- 13 Do staff seek to remove all barriers to learning and participation?

Identifying Barriers to Access – Premises

- 1 Does the size and layout of areas – including all academic, sporting, play, social facilities, classrooms, the assembly hall, dining area, library, indoor and outdoor sporting facilities, playgrounds and common rooms allow access for all pupils or members of staff?
- 2 Can pupils who use wheelchairs move around the school without experiencing barriers to access such as those caused by doorways, steps and stairs, toilet facilities?
- 3 Are pathways of travel around the site and parking arrangements safe, routes logical and well signed?
- 4 Are emergency and evacuation systems set up to inform all pupils, including pupils with SEN and disability; including alarms with both visual and auditory components?
- 5 Are non-visual guides used to assist people to use buildings, i.e. lifts with tactile buttons?
- 6 Could any of the décor or signage be considered to be confusing or disorientating for disabled pupils with visual impairment, autism or epilepsy?
- 7 Are areas to which pupils should have access well lit?
- 8 Are steps made to reduce background noise for hearing impaired pupils such as considering a room's acoustics, noisy equipment?
- 9 Is furniture and equipment selected, adjusted and located appropriately?
- 10 Is the equipment in the disabled toilet properly installed and accessible?

Identifying Barriers to Access – Personnel, Governors and Parents

- 1 Are teachers, administration and support staff aware of the implications for them of the Disability Discrimination Act?
- 2 Does the school provide information in simple language, symbols, large print, an audio tape or in Braille for the families of pupils and prospective pupils who may have difficulty with printed information?
- 3 Does the school ensure that information is presented to groups in a way which is user friendly for people with disabilities e.g. by reading aloud and explaining diagrams?
- 4 Does the school have facilities such as ICT to produce written information in different formats?
- 5 Are staff familiar with technology and practices developed to assist people with disabilities?
- 6 Are pre-school home visits used effectively to plan ahead for pupils with disability?
- 7 Do staff have access to training?
- 8 Do policies reflect the school's aim?
